

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN™

New Jersey Chapter

Dear NJAAP Member,

You are invited to attend an informal meeting to discuss climate change and children's health. In response to concerns about the influence of climate change on children's health in NJ, nationally, and worldwide, NJAAP is forming a Committee for Climate Change Response. We hope to coordinate efforts with those of AAP chapters in other states and AAP nationally. Will you join our efforts? We intend to meet in person twice a year, and then by phone once a month. The committee will be chaired by Dr. Polly Thomas with support from Dr. Jeanne Craft, who helped draft the Rutgers report on Climate Change in NJ.

We hope to have about 10 committee members, from across NJ. If you are interested in becoming a member, please join us Monday, October 9th, at NJAAP, located at:

50 Millstone Road - Building 200, Suite 130
East Windsor, NJ 08512

Dinner will be served from 6:00-6:30 pm with climate change discussion taking place from 6:30-8:00 pm.

If you have questions, please email Dr. Polly Thomas (thomasp1@njms.rutgers.edu) or Bethany Kondavaty (bkondavaty@njaap.org).

Your reply, along with any dietary restrictions, are requested by **Monday, October 2nd** to Bethany Kondavaty at 609-842-0014 or email at bkondavaty@njaap.org.

We look forward to hearing from you.

NJAAP Team
