Workshop:
Tics and Tremors in Children

NJAAP School Health Conference
October 16, 2019

Stephen J. Thompson, MD
Associate Professor and Medical Director
Division of Pediatric Neurology
Departments of Pediatrics and Neurology
University of Maryland School of Medicine
Let’s have a conversation...

• What are tics?
• What are tremors?
• How common are they in children?
• What does the teacher and school nurse need to know?
• Is there treatment?
• How effective is the treatment?
• Questions and answers...
