WHO WE ARE

The New Jersey Chapter, American Academy of Pediatrics (NJAAP) is made up of more than 1,900 pediatricians, pediatric sub-specialists, and allied health professionals dedicated to improving the health and well-being of all infants, children, adolescents, and young adults throughout New Jersey.

PEDIATRIC EXPERTISE

Pediatricians are the most trusted resource for children and families and play an important role in promoting relational health. We provide a diverse, customized, high-quality, evidence-based education to a wide variety of audiences. Our Speakers Bureau have expertise, knowledge, and experience in a wide variety of topics including Adverse Childhood Experiences (ACEs), toxic stress, behavioral health, cyberbullying, racism, gun violence, positive parenting. Our speakers are also well-respected in the field and have influence in the pediatric professional community to provide high quality educational programming.

We pride ourselves on the educational programs offered – they are customizable to fit your needs. NJAAP has the capacity to offer one-time live webinars, live webinar series on a particular theme, recorded webinars and webinar series, half-day or full day sessions or conferences, in-person and virtual group learning sessions and technical assistance, and Project ECHO® (Extension for Community Healthcare Outcomes) programs.

"The four sessions had helped us provide a supportive teaching and learning forum for our staff and students especially during this difficult time. Covid-19 has been an unprecedented occurrence for everybody, but by the power of trauma informed and other related trainings to our staff, we have continued to be resilient in Bridgeton Public Schools. I want to thank you on behalf of our staff."

~ Dr. Eniola Ajayi,
Bridgeton School District

New Jersey Chapter, American Academy of Pediatrics

TRAINING INSTITUTE

New Jersey Chapter
INCORPORATED IN NEW JERSEY

American Academy of Pediatrics
DEDICATED TO THE HEALTH OF ALL CHILDREN®

NJAAP is one of only three approved Pediatric Project ECHO® hub sites in New Jersey. Project ECHO® utilizes a hub and spoke model via virtual technology to disseminate knowledge and amplify local capacity to provide best practice care. Regular weekly, bi-weekly or monthly virtual sessions include presentations by guest lecturers and guidance from a designated hub of subject matter experts. The hub discusses evidence-based strategies related to the area of focus, and guides participants in application of this knowledge and incorporation into their work. Case presentations by participants and group sharing, hallmarks of the ECHO model™, allow for integration of didactic learning to real world situations.

The Chapter has a strong drive to improve health outcomes by augmenting the knowledge and skills of the adults in the lives of children.

Our audience has included:

- Primary Care Pediatricians
- Pediatric Specialists/Sub-specialists
- Family Practice Physicians
- Advanced Practice Nurses
- Pediatric Nurse Practitioners
- School Superintendents
- Principals
- School Administrators
- School Nurses
- Guidance Counselors Teachers
- Social Workers
- Community Health Workers
- Non-profit Organizations
- For-profit Businesses
- Parents & Caregivers

"Our partnership with the NJAAP has provided us with an invaluable resource as we put together programming for our Inclusive Resource Groups. The pediatricians are highly collaborative and provide much needed subject matter expertise and credibility across a variety of topics."

~ Scott Worland
Dow Jones and Company, Inc.
Strategy & Planning Manager;
Co-Chair of Parents@DJ IRG
